PERFECT FIT.

HVAC COILS: REPLACEMENT, RETROFIT, OR DESIGN-BUILD

At Capital Coil, our Quick Ship program guarantees you get the Perfect Fit, Uncommonly Fast when you need a replacement coil. If it doesn't ship on time, you don't pay the premium!

- Our efficient, proven "Build and Ship" production system can design and manufacture a custom coil for you in 3-day, 5-day, or 10-day turnarounds. Standard lead time is 4-5 weeks.
- And, you can count on them to perform because we leak test every coil we ship under water with 450 PSIG dry nitrogen for 100% quality assurance.

INDUSTRIAL COILS: SPECIAL DESIGN & MATERIALS

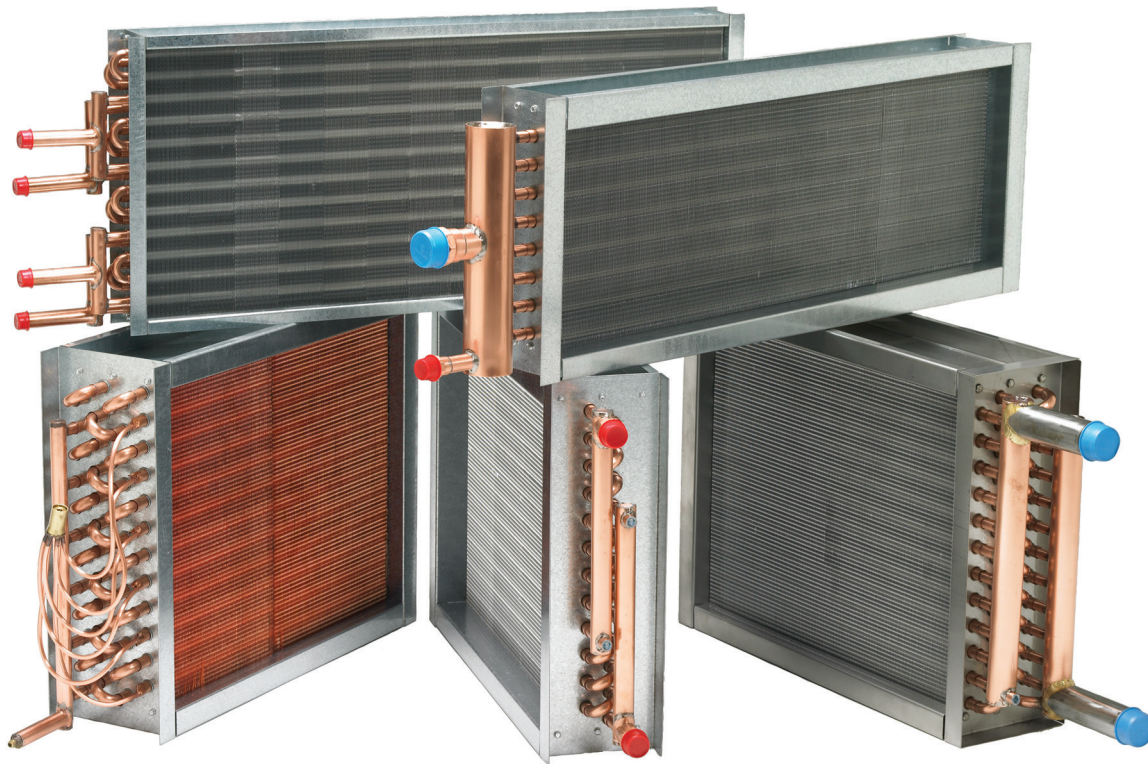

- Special coatings available
- Materials: Stainless Steel, Carbon Steel, Cupro-Nickel, or Brass
- Designed to work in even the most adverse conditions, whether at high temperatures, high pressures, or highly corrosive atmospheres.

SHELL & TUBE HEAT EXCHANGERS/TUBE BUNDLES

- Capital builds a variety of designs: "U" tube heat exchangers, straight tube fixed tubesheet exchangers and straight tube floating tubesheet exchangers.
- Capital Tube Bundles are readily available with standard 1-2 week shipment. Replacements available for Steam, Boiler Water, and High Temperature Hot Water Bundles.
- For applications where required, Capital can furnish 90:10 Cupro-Nickel, admiralty brass, or stainless steel tubes built with the same care and same quality as our standard coils. We can provide replacement tube bundles made from tubing O.D.'s of 1/2", 3/8", or 5/8".
